- **BACHELOR'S OF INFORMATION TECHNOLOGY**
  UNIVERSITY OF MUMBAI   *07/2018 - 05/2021*

  MGM Institute of Computer Science & Information Technology

EXPERIENCE

Reczee - Effective Matchmaking for Recruitment - Freelance

- My responsibility was to overhaul the entire platform and give the website a more upscale appearance.
- I redesigned the website structure including page format, buttons and colour palettes to improve user experience.
- **Softwares Used** : Figma, Adobe illustrator
- **Website** : **Reczee - www.reczee.com**

PROJECTS

Event Maker Web-App UI Design

- The event maker web application is made for restaurants and clubs and enables users to connect in a contemporary manner thanks to its dark design and distinctive button layout.
- Figma's smart animation is used to create interaction between the dates of matches. This uses excellent typography and colour contrasts.
- **Website : https://www.behance.net/gallery/145142613/Event-Maker**

SHAW Academy App UI Design

- Shaw Academy is an already-existing programme, and in this revamp I've added some new features including more imaginative user interface ideas.
- The app's user interface is created with all age groups in mind and offers a welcoming environment. And there are also some convenient payment options.
- **Website : https://www.behance.net/gallery/127960903/App-Clone**

SKILLS

- **Soft-Skills :** Team Work, Empathy, Goal Oriented, Organized
- **Hard-Skills :** Figma, Html and CSS, Prototyping, Wireframing
